THE CALIFORNIA REPERCUSSIONS

WWW.REPERCUSSIONS.COM

The California Repercussions is part big band, part jazz band, part party band—and all fun! The group performs mainly in northern California, but has traveled extensively on five continents.

The Repercussions are known for:

- Our broad repertoire of musical styles, spanning rock, swing, big band, jazz, and novelty tunes.
- Choreographed movements and talented soloists for visual and musical excitement.
- Entertaining audiences of all ages and musical preferences.
- Energy! Our fast-moving tempo enlivens each performance with great music and memorable fun.
- The flash and shine of a group of musicians who love playing together!

THE CALIFORNIA REPERCUSSIONS

Formed in 1982, the Repercussions (a.k.a. the Reapers) draw membership primarily from alumni of local collegiate marching bands, including UC Davis, UC Berkeley, and Stanford University. Most Reapers are not full-time professional musicians, though our skill and experience together is evident in our performance. Our careers range from educators to Silicon Valley engineers to toxic waste specialists. What unites us is our love of performing dynamic and lively music to appreciative audiences.

With a membership of more than 80 musicians, we can tailor our band to your specific needs. Not strictly a marching band, the Reapers are very mobile—we don't need a PA system or a stage. Our performances are ideally scheduled in two sets to extend your entertainment, however show times can be easily adapted to fit your event, and our fees are reasonable.
